To Whom It May Concern:

Re: Mravicich Residential Ltd

Mravicich Residential was employed to undertake extensive renovations to our Remuera Bungalow. The design specification required Paul Mravicich to manage the creation of a modern family home while reinstating its traditional bungalow characteristics. This was successfully achieved and to an exceptional quality of finish.

Paul and Lisa set very high standards for Mravicich Residential which is reflected in the team of contractors and individuals they employ. Paul is an outstanding professional and applies a genuine interest in the project he is involved in.

The Mravicich team's hard work and care, combined with a friendly partnership approach, has created a functional long-term family home that we are very proud of. We look forward to working with them again in the future.

Yours Sincerely,

James & Pippa.
